

# Tagger Feeder

## Overview

Streamfeeder's Tagger Feeder is the ideal solution for increasing productivity on your large format bag feeding lines for pet food, feed, seed, salt and more. Designed to automatically dispense tags onto the filled bag as the bag enters the sewing machine. Tags can be applied long or short edge leading. Roll up design makes for easy integration.

## Standard Features

- Small footprint and adjustable discharge angle allows the feeder to conform to production floor layouts and small work areas
- Patented Differential Friction Technology™ for accurate and consistent tag feeding
- Easily integrates with sewing machines manufactured by Union Special, Fischbein, and others

Contact our experienced sales team today for a comprehensive review of your application/product and see how our Tagger Feeder can benefit your company.

Use the single-stage discharge for infeeds like this

Use the dual-stage discharge for infeeds like this
